2022 YEAR IN REVIEW

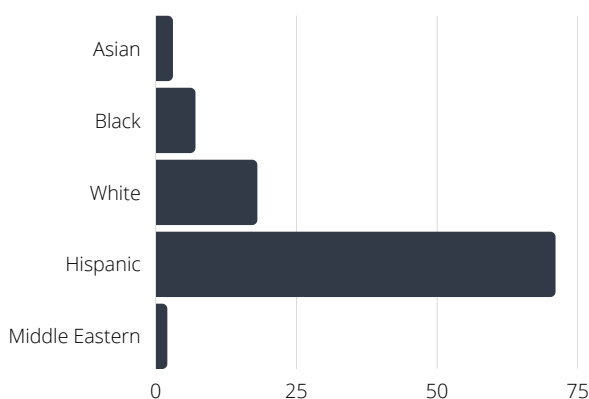

During 2022, Heart and Soul Free Clinic, has been preparing for the future of the clinic. Our patients, staff, volunteers, and supporters are the reason for the preparation. In 2022, the clinic revised the website, started using a new donor management system, and began the process of creating a 3-year strategic plan. Our mission continues to be to provide the highest quality healthcare to uninsured and underinsured neighbors in Central Indiana regardless of their social, cultural, and economic status. We are able to fulfill our mission due to the passionate and committed team of staff and volunteers. Our supporters and donors are amazing and continue to provide financially to the success of the clinic. In 2022, the clinic was able to provide care at over 1550 patient visits. This is the highest number of patient visits recorded at the clinic.

The clinic continues to see a strong need in the community and more space and volunteers will be needed to provide more care.

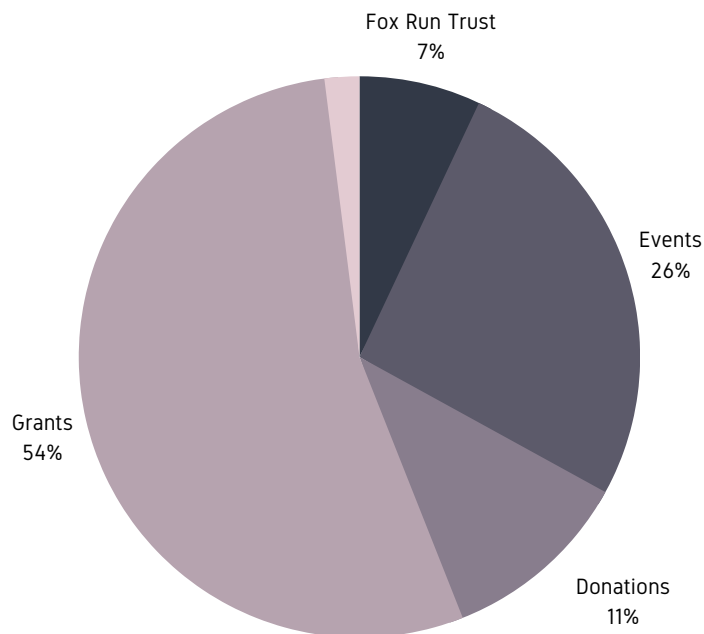

Thank You!

Lisa Zouvelos Kreag
Executive Director

Mission: To provide highest quality healthcare to our uninsured and underinsured neighbors in Central Indiana regardless of their social, cultural, and economic status.

STATISTICS

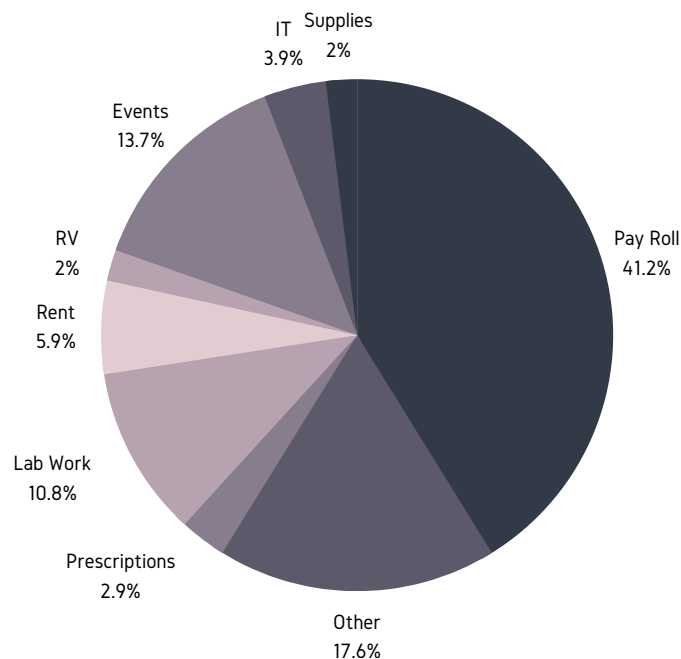

HEART AND SOUL CLINIC REVENUE

The clinic is funded through grants, donors and fundraisers. We are so thankful for the generous support of our donors. You make the difference!

HEART AND SOUL CLINIC EXPENSES

The clinic continues to keep the cost of providing health care to a minimum due to the volunteer health care providers, in-kind donations, and finding more efficient methods of service delivery.

PLANS FOR 2023

Heart and Soul Clinic will continue to take care of the health needs of the community. The strategic plan will be finalized in February 2023 and will provide a roadmap for the future of the clinic. The biggest need in 2023 is more space for the clinic to continue to grow and create more opportunities to reduce the barriers to healthcare in 2023
